## FISHING THE UNKNOWN / ACCESSING THE RIVERS

Some of the rivers are not easily accessed, therefore very few people have fished these locations. We know you might want to read up on these rivers online, but we will save you the trouble, there is not much information to be found, other than the knowledge of the few locals.

We will travel by boat to get to three out of five rivers, so there is a good chance you get to see harbour seals, reindeer that live in the mountains and a big variety of bird life during the trips.

## VEIDNESKLUBBEN / LOCATION OF THE HOUSE

## GETTING THERE

The drive from Lakselv to Veidnesklubben takes approx. 1,5 hours. Transportation is not included, but let us know and we can arrange a rental car for you upon arrival.
